

PRODUCTS FOR Food & Dairy

Laboratory

HI 84429 Titratable Acids mini Titrator & pH Meter

- Perform a complete analysis with one compact meter
- Comes with a pre-programmed analysis method

HI 901 Multiparameter Food & Dairy Titration System

- Measures critical parameters: pH, Titratable Acidity, NaCl, Calcium, SO₂, Vitamin C and more
- Support up to 100 titration methods (standard and user defined)
- Clip Lock™ – Change burettes quickly

HI 255 Combination pH/mV & EC/TDS/NaCl Meter

- Measure 5 parameters and °C
- GLP Features
- Log up to 200 samples
- Automatic temperature compensation

HI 99161 Portable pH meter

- Water and humidity proof
- Electrode w/built-in temperature sensor
- Automatic temperature compensation
- Dual level LCD

HI 98186 Dissolved Oxygen Meter

- Extended range up to 50 ppm and 600% saturation
- Barometric pressure measurement
- Salinity, pressure and temperature compensation
- Direct D.O., BOD, OUR and SOUR measurement
- Rechargeable batteries with inductive recharger

Portable

Wastewater

PCA SERIES Chlorine Analyzers

- Stores up to 300 data points
- Minimum maintenance
- Nema enclosure
- CL 17 compatible
- Backlit display
- Friendly interface
- DPD colorimetric method

3 MODELS

PCA 310

PCA 320

PCA 330

Free & Total Chlorine, pH, ORP & °C

HANNA'S HACCP APPROVED THERMOMETERS

HI 935007 Waterproof Thermometer
w/Direct K-type Probe
